PROJECTS

AI Chat Application (MERN Stack)

- Built a full-stack AI-powered chat application using MongoDB, Express.js, React.js, and Node.js with JWT-based authentication for secure user registration and login.
- Developed a multi-chat conversation system allowing users to create, manage, and delete multiple named chat sessions, with chat history persisted in MongoDB Atlas and restored across sessions.
- Integrated Socket.IO to enable real-time bidirectional communication between users and the AI, delivering a seamless ChatGPT-like chat experience.
- Implemented Pinecone vector database for storing embeddings and retrieving relevant conversation context, enabling more accurate and context-aware AI responses.

AI Caption Generator

- Developed a full-stack AI Caption Generator using React, Node.js, Express.js, MongoDB, and Google Gemini API.
- Implemented JWT-based authentication and image upload functionality to generate AI-powered captions instantly.
- Designed and deployed a responsive SaaS application on Vercel, integrating REST APIs and MongoDB for seamless user experience.
- Developed RESTful APIs and integrated MongoDB for efficient user data and caption management.

Food Ordering Website

- Displayed food items with images, names, and prices using reusable components.
- Integrated responsive design to ensure compatibility across devices (mobile, tablet, desktop).
- Implemented Add to Cart functionality with real-time item count and total price using React useState.
- Used React Router DOM for seamless navigation between pages like Home, Menu, and Contact.

LivingLines Website

- Built a fully responsive modern website using Next.js and Tailwind CSS.
- Developed dynamic UI components like Hero Slider (Swiper) and Marquee animation using React hooks.
- Rendered Gallery and Testimonials dynamically using JSON data.
- Integrated Video Banner with CTA and deployed on Vercel, focusing on performance and user experience.

EDUCATION

Bachelor Degree - Indira Gandhi National Open University(IGNOU) | Siliguri, India

Aug 2022

SKILLS

Libraries and Frameworks:	ReactJS, NextJS, Tailwind, Bootstrap
Languages:	JavaScript(ES6+), TypeScript, CSS3/SCSS, HTML5
State Management:	Redux Toolkit, Context API
Backend:	Node.js, Express.js, Mongoose, MongoDB, REST APIs, JWT Authentication
Tools and Deployment:	Git, GitHub, Socket.IO, Vercel, Render

Certificates

FULL STACK DEVELOPMENT COURSE

PHYSICS WALLAH
